

WACACO[®]
minipresso

Minipresso is the world's most compact espresso machine. Being hand-operated, Minipresso requires no batteries or electricity. All you need is boiling water and your favorite ground coffee. The semi-automatic piston injects water through the coffee adapter, delivering a rich & bold espresso. Minipresso has been designed for people with active lifestyles.

Minipresso GR

Doesn't matter if you're going away for few hours or a fortnight, space and weight are major factors when you select your travel equipment. Minipresso has been designed to be the smallest, lightest and most versatile handheld espresso machine.

Overall length
6.89 in / 175 mm

Overall weight
0.8 lbs / 360 grams

Average pressure
116 psi / 8 bars

Innovative & Powerful

Minipresso ease of use lies in its conception. With the help of the semi-automatic piston, small quantities of water are injected into the coffee adapter. After few pushes, the optimal extraction pressure is achieved. A rich and bold espresso is extracted.

Efficient & Easy to use

Besides being aesthetically pleasant with its modern and slick design, Minipresso contains an ingenious core, the semi-automatic piston. Unlock it from its carrying position and press it at will to control the amount of extracted coffee.

Minipresso NS

Minipresso NS uses Nespresso®* capsules to prepare espresso. The advantage is that the coffee is ground, measured, tamped, with a higher precision than we are capable of doing. There is very little left for error, so your espresso is great every time. It's also more convenient, mess free and easier to clean after use. Minipresso NS is compatible with the large variety of capsules proposed by Nespresso®*.

Minipresso NS is your best choice to quickly enjoy up to 45ml of delicious espresso at home, in the office and on the go.

Dimensions

175x70x60 mm
6.89x2.75x2.36 in

Weight

350 g 0.78 lbs
